Your feedback is highly appreciated and will help us to improve our ability to serve you. Please give your suggestions to improve the overall course experience.

- good

- I wanted to share some feedback regarding the Management Philosophy course. Overall, I found the course to be enlightening and thought-provoking. Here are a few points that I believe could enhance the learning experience:

Conceptual Clarity: While the course content was comprehensive, I found some concepts to be quite complex. It would be beneficial to have more detailed explanations or additional examples to clarify these concepts further.

Application of Theories: Incorporating more real-world examples or case studies would help bridge the gap between theory and practice. This would not only enhance understanding but also demonstrate how these philosophies are applied in different organizational contexts.

Engagement and Interaction: I appreciated the interactive discussions in class. It would be great to have more opportunities for group discussions or debates on different management philosophies. This could foster a deeper understanding and encourage critical thinking among students.

Feedback on Assignments: Timely and constructive feedback on assignments would be highly beneficial. This would not only help in understanding where improvements can be made but also in reinforcing the concepts covered in the course.

Resources and Readings: It would be helpful to have a curated list of additional readings or resources for those interested in exploring specific philosophies further. This could supplement the course materials and provide a broader perspective on management theories.

Thank you for considering these suggestions. I believe implementing these changes could further enhance the learning experience for all students enrolled in the Management Philosophy course. I look forward to the rest of the semester and continuing to delve into these intriguing topics.

Best regards, Abhijeet Chormale

Project Help in any Quries

There is no suggestion for improvement regarding sessions (Project workshop). But I would like to suggest please keep updating regarding the steps/procedures which the department is going to take till the year end. Because in last month (June) the session on MBA subjects had taken then next session took in July after more than 30 days.

This is making confusion to me/us. Yet to start the admission process and there no clear idea on the learning materials/LMS.

PowerPoint presentations should be emailed.
